

Amendments to the Specification

Amend the first full paragraph on page 2 of the specification as follows:

Members of the CRF2 family have been reported to act as receptors for a variety of cytokines, including interferon alpha, interferon beta, interferon gamma, IL-10, IL-20, and IL-22.

Recently identified members of the CRF2 family are candidate ~~ligands~~ **receptors** for the IL-10-like molecules IL-19, AK155 and mda-7_T.
